

X•Aware Technology

Smart Personal Protection

An Additional Layer of Close + Personal Protection with Smart Predictive + Preventive Security.

Are you aware of what is constantly, 365/24/7 happening around you?

Such as having visible and invisible awareness and intelligence when you are on the road, at home, visiting or traveling.

- Discover if and when you are covertly tailed
- Identify threats faster by making them visible
- Recognize threats before they can be executed
- Collect increased situational awareness

X•Aware provides you and your loved ones with increased preventive protection.

X•Aware Operational Technology:

Detection > Collection > Identification > Recognition > Correlation > Prediction
all this combined results in **real-time preventive protection.**

X•Aware – 360° Situational Awareness + Preventive Protection.

X•Aware technology continuously and passively scans the wireless radio spectrum for 'wireless identifiers', which are constantly and invisibly emitted by any type of wireless device, such as smartphones, headsets, airpods, smart watches, smart wearables and vehicle components, infotainment, safety system, GPS system and so on.

In short, processing everything that everyone nowadays carries with them, or in which they are transported. With an operational range of 10 to 900 hundred feet. Enabling you to receive 360 degree intelligence, 365/24/7.

X•Aware – a smart technology to protect you and your loved ones 365/24/7.

X•Aware provides you with fact-based prediction of potential assaults and constantly increased **preventive protection while being on the move, on premises or traveling.**

X•Aware Technology Capabilities

- Risk-increasing correlations are automatically noticed
- More insights into what is constantly 365/24/7 happening around you
- Receive preemptive notifications when patterns of life suddenly deviate
- Prevent valuable information from being overlooked by camera blind spots
- Minimize information loss during staff shift changes and while traveling
- Receive fact-data predictive alerts based on automated threat analysis
- Real-time 360 degree situational awareness anytime and anywhere

X•Aware Intelligent Backend Capabilities:

- 365/24/7 Security Operations Center

All Inclusive - Managed Service, whereby our Wireless Intelligence Investigators and Analysts alert you or your Security Team in real-time preventively from our in-house Ops Center. Customized to the needs and requirements of the client.

- X•Aware App + Dashboard

Have access to the AI-based comprehensive X•Aware Dashboard to collect Situational Awareness, automatic Risk Classifications and Threat Analysis in real-time.

Within the user-friendly AI-driven App, alerts are configurable based on risk and threat classifications, automatic correlations, pattern recognition or other settings to minimize false positives with the objective to alert you when it is actually necessary.

X•Aware has a discreet, modular and portable design that makes it easy to fit into any type of vehicle and backpack. In addition, Plug & Play deployable at home, on yachts, at playgrounds, near the office and other locations that are important to you.
