

# **X•Guard**

**by X-Sensor Technologies**

**X•Guard > designed as preventive and proactive security to reduce Organized Retail Crime.**

Smash & Grab Robberies and Organized Retail Crime pose a significant threat to the safety of bystanders, customers and employees.

Which is why we introduce X•Guard, the Plug & Play Security Technology, designed prevent and reduce retail crime, which has a positive effect on a safer working and shopping environment.

## Let us help you keep your store, high street and community safe.

### **X•Guard Capabilities:**

#### **Fact-Data Predictions**

With X-Alert security officers receive, based on factual collected invisible attributes, predictive security alerts prior to a possible robbery.

#### **Proactive Security**

Recognize an organized retail criminal gang or a known lone criminal actor real-time upon entering the store. This increased intel helps officers to act more proactively.

#### **Preventive Protection**

Find out when an ORC scout known in the system enters the store, allowing in-store security officers to take preventive and additional security preparations.

#### **Incident Management**

After an incident, security officers will be able to filter the collected identifiers to recognize which devices were present at the time of the crime and provide law enforcement with this list.

#### **Digital Forensic Evidence**

Based on the factual collection and automatic correlation of invisible attributes an unrecognizable suspect or gang can be identified within seconds.

#### **Collection of Identifiers**

By sharing the unique identifiers with law enforcement, retailers have a greater chance of recovering their stolen merchandise faster.

## Increased Situational Awareness

X•Guard is an addition to traditional security by monitoring the invisible wireless radio frequency spectrum and collecting invisible attributes which are constantly transmitted by every type of smart wireless device.

Such as: Smartphones, Headsets, Earpods, Smart watches, wearables, and so on.

By detecting both visible and invisible patterns, the X•Guard provides officers with extensive situational awareness and factual digital forensic evidence.

**Recover merchandise faster. Identify unrecognizable suspects.  
Receive preventive security alerts. And more, with X•Guard.**

# Preventing + Reducing Retail Crime

Within the user-friendly dashboard (including app), alerts can be configured based on risk classifications, automatic correlations, pattern recognition or other settings that only alert a security officer when necessary.

X•Guard is a discrete modular, easy integrable, security equipment that can be deployed both indoor and outdoor.
