

X•Aware Tactical

by X-Sensor Technologies

X•Tactical – Collect additional invisible intelligence during your missions.

X•Tactical is designed to be rapidly operational in any given situation. We understand that during reconnaissance your team needs to obtain as much valuable intelligence as possible in a very short period of time.

Capture more intelligence by remotely scanning in the RF spectrum

Available as:

Drones / Stand-Alone / Concealed / Subterranean / Camouflaged

Deployable – Portable – Tactical Intelligence Collector

X•Tactical is a Portable Outdoor – Weather Resistant Multi Wireless + Cellular RF Spectrum Real-Time “Invisible Identifiers” Intelligence Collector.

X•Tactical RF Spectrum Identifiers + IMSI Collector is a drone compatible 2G, 3G, 4G native detection, identification and tracking system.

Designed to be used across multiple Drones + UAVs (Unmanned Aerial Vehicles). Thanks to its lightness, robustness and reliability to operate in all weather environments it is world wide deployable.

Extracting from mobile devices, vehicles and wearables: IMSI, TMSI, IMEI, MAC identifiers and other valuable attributes.

Portable + In the Air + On the Move + Integrable + Stand-Alone

- Fully operational solution – Plug & Play out of the box
- User-Friendly and intuitive – Rapid deployment interface
- Remotely controllable – Comprehensive control panel

Multi RF Spectrum Flexibility

- Capture Devices within the Cellular Spectrum
 - GSM - EDGE - 4G LTE - 5G Ready
 - Wireless: BLE - WIFI - TPMS
 - Multi channel operations
 - Flexible channels: 1 up to 8
- Portable / UAV Payload
 - Depending on number of channels
 - Weight per two channels: 1,1 KG
 - 800 Mhz to 5Ghz SDR Radios
 - Range up to 500 meters
- Stand-Alone + UAV Tactical Payload
 - Up to 3 hours operational time
 - Tetherdrone unlimited operational time
 - Weight multiple channels: 4,5 KG
 - Range up to 1,500 meters
- Vehicle + UAV Tactical Payload
 - Dual Radio + Flexible use
 - Mix of all world wide bands
 - Customizable antenna array
 - Range up to 3,000 meters

Capturing “Invisible” Intelligence

Next to the UAV / Drone deployment X•Tactical can be widely used indoor, outdoor, standalone, body-worn, discreet and camouflaged.

X•Tactical - includes a comprehensive extensible web-based dashboard that is encrypted and securely connected to the on-site equipment. Within the user-friendly dashboard, alerts can be configured based on risk classifications, automatic correlations, pattern recognition or other settings.

Contact us for all the possibilities of X•Tactical.
